DEAP Cache: Deep Eviction Admission and Prefetching for Cache

September, 2020

AYUSH MANGAL* | **JITESH JAIN*** | KEERAT KAUR GULIANI* | OMKAR BHALERAO*

Vision and Language Group, IIT Roorkee

- This is the **first** time an approach has tried learning all the three policies: Admission, Prefetching and Eviction.
- Unlike, previous methods which relied on past statistics for carrying out cache replacement, we predict future statistics (frequency and recency) and then use an online RL-algorithm for eviction.
